Logos indicate which transit companies serve the Connection Point.
Connection Point boxes in the lake indicate route numbers serving the Connection Point.

How To Read Bus Route Numbers and Notes

- A '+' indicates that all branches run along that portion of the route. For example, 87+ indicates the presence of all branches: the 87, the 87A, the 87B.
- A ',' separates each branch in a route box where only some of the branches follow that portion of the route. For example, 87,A indicates that the 87 and the 87A are present: the 87B is not. Alternatively, 87A,B indicates the presence of the 87A and the 87B, but not the 87.
- A rectangular box indicates a route end point or a branch of a route end point.
- A pointed box is angled to show the direction of travel.
- A yellow rectangular box indicates the end point of an express route or the end point of an express branch of a route. Note that route lines are not shown for express branches on regular routes.
- A yellow pointed box shows the direction of travel on Downtown Express routes, Routes 191, 192 and 196.
